

To make our ambitions a reality, we deliver a huge range of services, with colleagues working together in a variety of diverse roles across the council.

No matter what your role at Wirral, you'll be supported to #BeTheDifference, and below you can find out more about the different areas of the council you can join ...

#BETHE  
DIFFERENCE

# Adults Care & Health & Strategic Commissioning

Our Adult Social Care function provides care services in collaboration with health and other partners for adults who need extra support. The Directorate also has responsibility for commissioning and managing the contracts of those services. By placing the people they support at the heart of everything they do, our colleagues in this Directorate deliver services of the highest quality, where people are supported, protected and inspired to live independently.

# Public Health

Our Public Health Directorate works across the council and wider Wirral system to improve health, keep people safe and reduce the impact of social determinants, such as unemployment and poor housing, on the most vulnerable people and population groups. Good population health requires collective action and Public Health drives this through the use of dynamic strategies and plans for reducing inequalities across Wirral, through robust programmes to protect health, through strong intelligence, evidence & local insight and through effective preventative services.

# Children, Families & Education

Our Children, Families & Education Directorate offers a wide range of specialist and targeted services, working together to improve early help for children and families, and breaking the cycle of poor outcomes for all regardless of their background.

# Regeneration & Place

Wirral has ambitious regeneration plans taking shape across the borough and our Regeneration and Place Directorate is driving forward big changes to improve the lives of our communities. These changes will continue to make Wirral a more desirable place to live and work and will help people to enjoy better health and wellbeing, and improve opportunities for education and skills, allowing the economy to provide more and better jobs so local people can achieve their aspirations.

# Neighbourhoods

Our Neighbourhood Services Directorate works to create safe and pleasant places for residents, businesses and visitors. We also support residents to lead, active and healthy lives, and work for a sustainable environment that leads the way in response to the climate emergency.

There is a huge variety of services across this Directorate ranging from libraries to leisure, parks, highways, waste, environmental health and more.

# Finance

As Council Officers we all have a responsibility for public spend and to deliver services in a financially sustainable way.

This includes exploring how digital opportunities can support new ways of working and modernise how our communities engage with us. Our Finance Directorate has a crucial role in making excellent, cost-effective service delivery possible, helping to secure the best possible future for our communities.

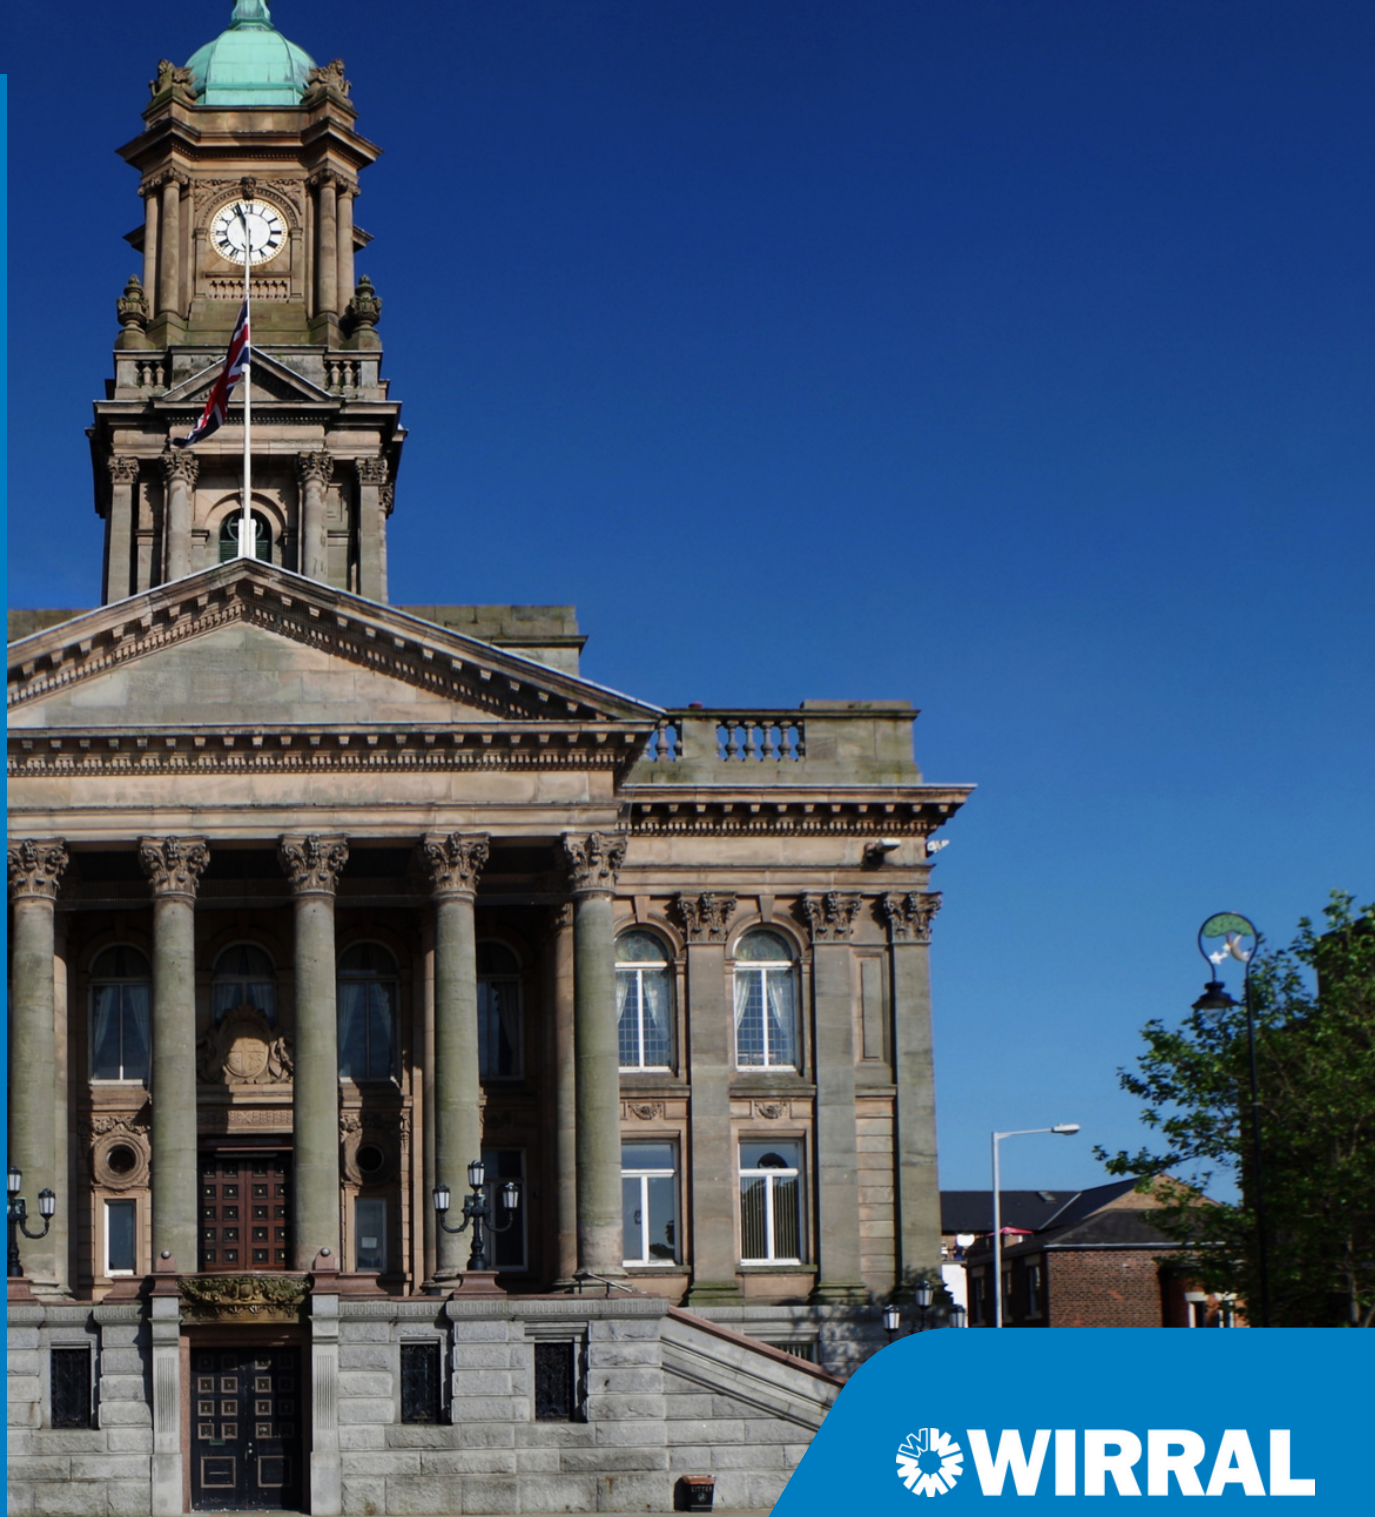

# Law & Corporate Services

This Directorate is a mixture of front facing and professional services.

Front facing services include Registrars, Licensing and Elections.

Professional services to council directorates includes many enabling services to help the organisation thrive. From Legal Services to HR, Communications to Programme Management, Data Performance and Insight to Democratic and Civic services and more.

Our Law & Corporate Services Directorate plays a big role in delivering and enabling excellent services.

# Looking to join Wirral Council?

We're working to deliver and make a difference for our residents. We need great people with compassion and energy who are ready to work with us to deliver the best for residents and communities in Wirral.
